

Volume Measuring method	500 ml Scales
<b>Hydraulic circuit:</b> Feed pump Suction pump Displacement	10 l/min, single-stage gear pump – 3.6 cm <sup>3</sup>
<b>Fresh oil filter:</b> Filter Flow rate	Stainless steel mesh 150 l/m
<b>Service hoses:</b> A/T connections – hoses 1/2 (length) Used ATF drain hose (length)	3 m –
<b>User interface:</b> Display Keypad Update interface Service	LCD 4.3’’ Membrane USB type A (with USB 2.0 key) USB type B (direct connection to PC)
<b>Functions:</b> Automatic mode (Fully Automatic) ATF charge ATF recovery a/t flushing Additive injection Zero-cross contamination used ATF tank drainage Boost function on-board data bank web data bank Dipstick function Thermal printer	Dedicated hose with tap  1st year free of charge
<b>Dimensions:</b> W x D x H Weight when empty	750 x 750 x 1,200 mm Approx. 65 kg
<b>Power supply:</b> Frequency Voltage Power Thermal switch	50–60 Hz 230/240 V AC 500 W 12 A
<b>Ambient conditions:</b> Operating temperature Air humidity	0–50 °C 10–90 % RH (non-condensing)
