- For use with R134A Refrigerant
- Automatic Service Maintenance
- Reports in A4 Format
- Remote Technical Assistance
- Software Updates in Real Time
- 10KG Tank
- 7" Touch Screen Display
- Car & Truck Compatible

OFN PRESSURE TEST KIT is used to detect leaks in an air conditioning system before recharging it. Being Oxygen free it doesn't contain any moisture which would be harmful to the A/C system.

It is illegal to knowingly release refrigerant into the atmosphere which is why OFN is used.
